

Andover maintains a stock of high-quality [Surplus Optics!](#) These are primarily overruns of custom production lots, and exhibit the same high level of quality as all of our other products. Consequently, this can be a very economical alternative to purchasing a custom optic.

We offer a variety of sizes, shapes, and wavelengths, all with an immediate turnaround. Searching for your part is easy! Just visit the [Search](#) page on our website, enter your wavelength ranges and bandwidth ranges and all our products available will be displayed. Alternatively, feel free to [browse our Surplus listing pages.](#)

For further assistance in choosing the right optic from our surplus stock, [please contact our technical sales department.](#)

***As always, FREE GROUND SHIPPING on all domestic orders placed through our website!!***
